

SPRING TERM 2025

ENGLISH

Children share the focus texts above and use them as a basis to do the following:

- Write an historical narrative
- Write an informative leaflet

Children are taught reading daily.

MATHS

Children will cover the following units this term:

- **Multiplication and division**
- **Time: to the minute and seconds; and exploring digital and analogue clocks.**
- **Fractions: unit fractions; comparing fractions; and adding and subtracting fractions.**
- **Angles and shapes: acute and obtuse; parallel and perpendicular; and reasoning using angles and shapes.**

Children continuously develop and practise their number knowledge.

SCIENCE

Light and shadow

- Children learn how light travels.
- Children will learn about sources of light.
- Children will learn what shadows are and how they are formed.

Plants – needs for survival

- The purpose of plant parts.
